

Whitepaper TennisCoin

1. Introduction

1.1. Vision and Mission

In the world of sports, tennis is a discipline that not only teaches physical skills but also values such as discipline, perseverance, and teamwork. However, many children and young people do not have access to the resources needed to practice this sport and develop their potential. TennisCoin is created with the aim of changing this reality. TennisCoin is a blockchain-based utility token designed to raise funds to facilitate access to tennis for young talents and to improve infrastructure and training programs.

1.2. Project Overview

TennisCoin (TENCO) is a BEP-20 token on the BNB Smart Chain (BSC) that extends ERC-20. Through TennisCoin, the funds raised will be used to finance scholarships, purchase equipment, renovate tennis courts, and support training programs for children and young people. The token will also be used within a dedicated platform that offers exclusive services and benefits to holders.

2. Problem and Solution

2.1. Problem

- Limited Access: Many children and young people from disadvantaged backgrounds do not have access to quality tennis facilities or training programs.
- High Costs: Equipment and expenses for participating in tennis courses can be prohibitive for many families.
- Inadequate Infrastructure: Existing tennis facilities often need improvements to be accessible and safe for young athletes.

2.2. Solution

TennisCoin offers an innovative and sustainable solution to address these problems through:

- Fundraising: Using the funds raised from the token sale to finance scholarships and improve existing facilities.
- Usage Platform: Creating a platform where tokens can be used to access exclusive services and support tennis programs.
- Community and Support: Building a global community of tennis supporters who will contribute to the cause and benefit from unique advantages.
